

Perfect Night

The Nazarenes

Lyrics By Jon Timbrell / Music By Ste Parkes

Verse 1:

The door swings open and you walk in
A cool draft blows and chills my skin
Your presence is hypnotic
People stop and stare
I start to lose my grip
Why should I care

Chorus:

You came back to make things right
You came back to make things right
You came back after the fight
It's a shame you left upon that perfect night

Verse 2:

You walk over, I don't know what to do
Looking straight at me, your gaze runs me through
Reaching out
You touch my hand
What do you want
I just don't understand

Verse 3:

We're standing there, eyes both locked together
Lost in this stare, trapped forever
Finally you start to speak
The words seem so clear
But somehow weak
And filled with fear

Verse 4:

I ask why you did it, why you took that track
But there's no answer so all you gets my back,
You're trying to stop me
But my minds made up
Still calling after me
But you wanted to be free
